

SEWER AUTHORITY MID-COASTSIDE
Staff Report

Subject / Title

Conduct Joint Meeting With CCWD Water Reclamation Committee

Staff Recommendation:

Conduct Joint Meeting With CCWD Water Reclamation Committee

Fiscal Impact:

None

Discussion/Report:

The item is agendized to allow the Committee to conduct a joint meeting with members of the CCWD Water Reclamation Committee. The Committees will discuss each agency's recycled water goals, objectives, and programs. Committees may wish to discuss areas of mutual interest and partnership opportunities.

At their January 26, 2009 meeting, the Committee identified several topics for discussion with CCWD at this joint meeting. They included discussions of:

- CCWD's statement of exclusive rights concerning recycled water
- Will that belief affect SAM's proceeding on the project
- Will CCWD grant SAM permission to proceed
- What are the funding mechanisms; who on the Coastside will pay for the program

Committee may then consider recommending the SAM Board take action on the recycled water issues and the Recycled Water Program.

There are no attachments to the staff report.
