D, E, F, G, and H above shall be insured or collateralized.

2. Portfolio Diversification and Maturities. To support the stated investment objectives, the portfolio must be diversified to sufficiently minimize risk as well as to assure adequate liquidity and marketability of the invested funds. Maturity criteria should be considered in light of cash flow needs to prevent forced liquidation and to keep yields at the maximum. All investments and deposits shall conform to the applicable provisions of law, including in particular, the provision of California Government Code section 53600 et seq. and 53630 et seq.

III. Investment Practices

1. No "speculative" or "trading" activity on securities shall be permitted.
2. Within the primary objectives of safety of principal and liquidity, maximization of rate of return is desirable. The portfolio may be shifted to take best advantage of rising or falling interest rates.
3. The investment authority will be vested with the Treasurer, or his/her designee, who will be directly responsible to the Board.

A register of investment shall be kept by the Treasurer, or his/her designee. Registers of investment shall be reviewed at each Board meeting.

- * Banker's Acceptances: Short-term, no interest-bearing notes sold at a discount and redeemed by the accepting banks at maturity for face value. Generally, banker's acceptances are created based on a letter of credit issued in a foreign trade transaction.
- ** Repurchase Agreement: A generic term for an agreement in which a government entity (buyer-lender) transfers cash to a broker-dealer or financial institution (seller-borrower); the broker-dealer or financial institution transfers securities to the entity and promises to repay the cash plus interest in exchange for the same securities or for different securities.
